HT welcome IMechE young members

Hayward Tyler was delighted to welcome young members of the IMechE to their head office in Luton on 22nd April. [More](#)

New Intranet Launched

Hayward Tyler has launched its first new intranet website, bringing together staff and information across the Group. This is a significant step forwards in terms of synchronising data and providing up to the minute information to all staff around the world. As well as access to key information relating to quality, health and safety, business procedures and general company information, the site also has a knowledge base system built in, designed to share technical and company information.

HT Win *Investors in Customers* award

Hayward Tyler was delighted to receive an award for Investors in Customers. The award followed an independent customer survey by the IIC. The award is given to companies who can demonstrate an understanding of their customers, can meet their needs, engender loyalty and ultimately give customers a positive experience.
